

## Two Brothers, Two Memoirs of Family and Early Life in Texas and Venezuela

Carl's *Adventures from the Last Century* offers tales in the voice of the traditional oral story-teller: sharp, clear, engaging, and dramatic. Jerry's *Saving a Songbird* is a memoir more in the tradition of short story writers, though these stories are not fiction. The brothers tell about some of the same events as each remembers them, and both have their own stories.
